

# Graphic Designer

I'm a Chilean multidisciplinary graphic designer based in the Netherlands, passionate about creating engaging and meaningful experiences that foster a deeper connection with ourselves and our surroundings.

Curious about how different media can serve as bridges for connection, I explore both digital and print design. During my studies, I particularly enjoyed experimenting with diverse mediums, which helped me develop a broad skill set across various software and tools. I'm versatile, proactive, and creative, with a strong eye for detail and organisation. I adapt quickly, enjoy learning new tools, and always seek the best approach to bring creative ideas to life.

### Experience

Mar 2025 - Oct 2025 | REMIX Festival

**Willy Mullens Collection Showreel**

ArtEZ University of the Arts w/ Sound & Vision Institute

Motion Design · Video Editing · Print Design · Creative Reuse

Cocreated a series of three showreels that showcases part of the extensive collection of the Dutch Filmmaker Willy Mullens.

Conducted in-depth visual analysis of archive material to identify narrative patterns and compositional characteristics. Combined different skills as motion design, video editing and sound design. Worked with digital design and print design to set informational displays, as a website and for the final exposition.

Mar 2025 - Jul 2025 | Out of Bounds, Finals ArtEZ.

**So You Are Human... Noted.**

Graduation Project

Experience Design · Digital Design · Web Design · Prototyping · Visual Design

As my final project, I created an interactive audiovisual space that explores the emotional self. An installation consisting of an interactive control panel that allows users to map their feelings while viewing digital content. To achieve the digital design, I used HTML, CSS, and JavaScript, which also allowed me to create a feedback system between the user and the audiovisual database. Problem solving and user experience were fundamental to this project, as significant challenges were encountered in bringing the concept to life.

Sep 2024 - Dec 2024

**Norday**

Digital Design Intern

Motion Design · Video Editing · Print Design · Prototyping · Visual Design · Brand Design

I worked alongside them to build case studies into their new website. Actively creating graphics, mock-ups and assets to showcase their work. At the same time, I collaborated with the exploration for clients' visual identities, prototyping digital apps and presentation briefs.

### Other Experience

Nov 2025 - Present

**Desigual**

Sales Associate

### Education

Sep 2021 - July 2025

**Graphic Design**

Artez Hogeschool voor de Kunsten
