

Part of Stadtarbeit at Vienna Design Week 2024, Kiosk T//Waste is a mobile kitchen that takes rescued ingredients—discarded from local businesses—and transforms them into delicious vegetarian meals.

Kiosk T//Waste tackles the hidden problem of food waste in commercial kitchens, and invites the public to rethink what is classified as waste within kitchens, all while tempting your taste buds.

Follow the kiosk as it hops between locations—cook, eat, sit with us, or tune in to live radio shows with Elevator Radio! The kiosk mobile kitchen is made possible with the support of Chmara Rosinke's 'Mobile Hospitality' and Caritas.
