

Tower of Treasures

Service Design | Product Design | Design Research

Tower of Treasures is a countdown calendar designed to help students discover and engage with underutilized university resources that support mental health and well-being.

By delivering curated products, tools, and information in a fun and accessible way, the Tower of Treasures meets students where they are—both physically and emotionally—as they prepare for the start of the school year.

Client

Healthyhorns' *Longhorn Wellness Center* at
The University of Texas at Austin

Timeline

14 Weeks part-time, Fall 2024

Brief

Understand factors affecting the mental health and well-being of returning UT Austin College of Fine Arts students during their summer breaks and develop a service to help the Longhorn Wellness Center better support students during the summer.
