AWAY FROM

_HOME

Manifold Space is a London-based art collective, this year we are bringing our first group show featuring works from 26 emerging artists.

The exhibition explores the theme "Home Away From Home," delving into the complexities of identity shaped by one's background and cultural origin. Our aim is to transform House of Annetta into a curated repository of spatial memories, It will serve as a representation of the homes we once had, currently have, are on the verge of having, or yearn to have in the future.
