

# SUSTAINABLE PACKAGING FOR THE LUXURY MARKET

PRESENTED BY:

**WINTER & COMPANY**

Creative Coverings  
since 1892

## WE CARE

IT IS IN THE NATURE OF OUR ACTIONS TO **PROTECT THE ENVIRONMENT** AND TO HANDLE RESOURCES SUSTAINABLY.

MONTAGNE CUSTOM PACKAGING is sustainable by design. By taking concepts from idea to reality, the company contributes to the environment by using sustainable materials.

WINTER & COMPANY has developed WINTER WRUP-CYCLING, a process that revives recycled content into high-quality coverings reducing the use of new resources and can be found in various product groups.

**MONTAGNE CUSTOM  
PACKAGING WAS  
FOUNDED IN 2016 BY  
ANNE MARIE MONTAGNE  
SHULMAN.**

After spending 20 years in design and sales for the custom packaging industry, Anne Marie started **MONTAGNE CUSTOM PACKAGING**. Her focus has been working with clients to help them achieve brand goals for their packaging programs.

**MONTAGNE** has extensive combined experience developing new concepts by building brand identity, helping clients develop their initial concepts into products while remaining within budget, and coordinating multi-product programs. By partnering with Winter and Company we are able to provide sustainable products as we build a lucrative market.

# FOR OVER 125 YEARS, **WINTER & COMPANY** HAS STOOD FOR **QUALITY** AND **INSPIRING COVER** **MATERIALS.**

What began in 1892 with the founding of a joint company by two brothers today represents a globally active company in its fourth generation.

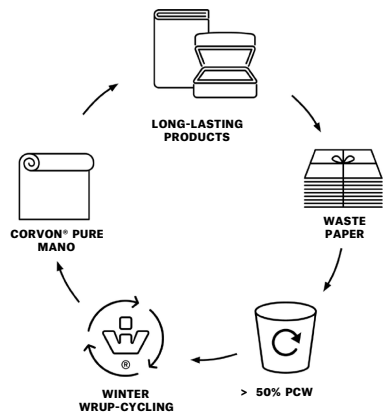

With a spirit of innovation, commitment to the environment and society as well as decades of experience, WINTER & COMPANY, based in Switzerland, offers its customers a unique range of creative and high-quality products, many of them with recycled content.

WINTER & COMPANY is committed to the UN Global Compact Convention, is REACH-compliant and FSCTM-certified for over 10 years (FSC-C007992). The company supports reforestation projects on several continents.

**RECYCLED COVER MATERIALS  
OUT OF PAPER WASTE: CORVON®  
PURE MANO.**

**THE USE OF RECYCLED PAPER  
IS AN EFFECTIVE WAY TO  
REDUCE THE ENVIRONMENTAL  
IMPACT.**

In search of innovative products, we have developed a durable, coated cover material which, due to the high percentage of recycled fibres, has significantly reduced the usage of virgin fibres.

CORVON® PURE MANO has a latex-free base material, which consists of more than 50% recycled fibers (PCW). The coated paper is recyclable, yet durable and easy to process. Due to the high percentage of recycled fibres it contributes to a circular economy. CORVON® PURE MANO is available from stock worldwide in 11 beautiful colours.

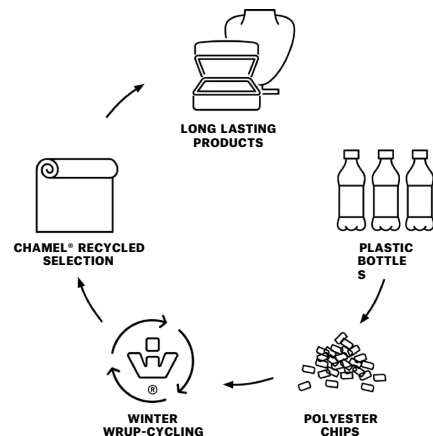

## RECYCLED COVER MATERIALS OUT OF PLASTIC WASTE: CHAMEL® RECYCLED SELECTION.

### A HIGH QUALITY VEGAN SUEDE, MADE FROM **OVER 80% RECYCLED CONTENT.**

For us creating truly sustainable products means that we consider them not only before they are produced, but also at the end of their life. We have created a recycled and recyclable imitation suede from plastic waste.

CHAMEL® RECYCLED SELECTION combines sustainability with a delicate suede look and soft feel. This high-quality and universal applicable cover material is often used for the interior lining of luxury packaging. The collection is available from stock worldwide in 7 wonderful colours.

**"LUXURY PRODUCTS  
DESERVE LUXURY PACKAGING."**

- Anne Marie Montagne Shulman
