

overture

The Overture 60 is a  
*leaf spring top-mounted*  
electrocapacitive keyboard.  
*7 Degree* typing angle.  
*Aluminum* top & bottom.  
*Copper* weight. *Walnut* accents.  
*1.7kg* ————— unbuilt.  
*18.7mm* adjusted front height.

Inspired by the OB-6 synthesizer, the Overture is that keyboard,  
*but in keyboard form.*

**overture**

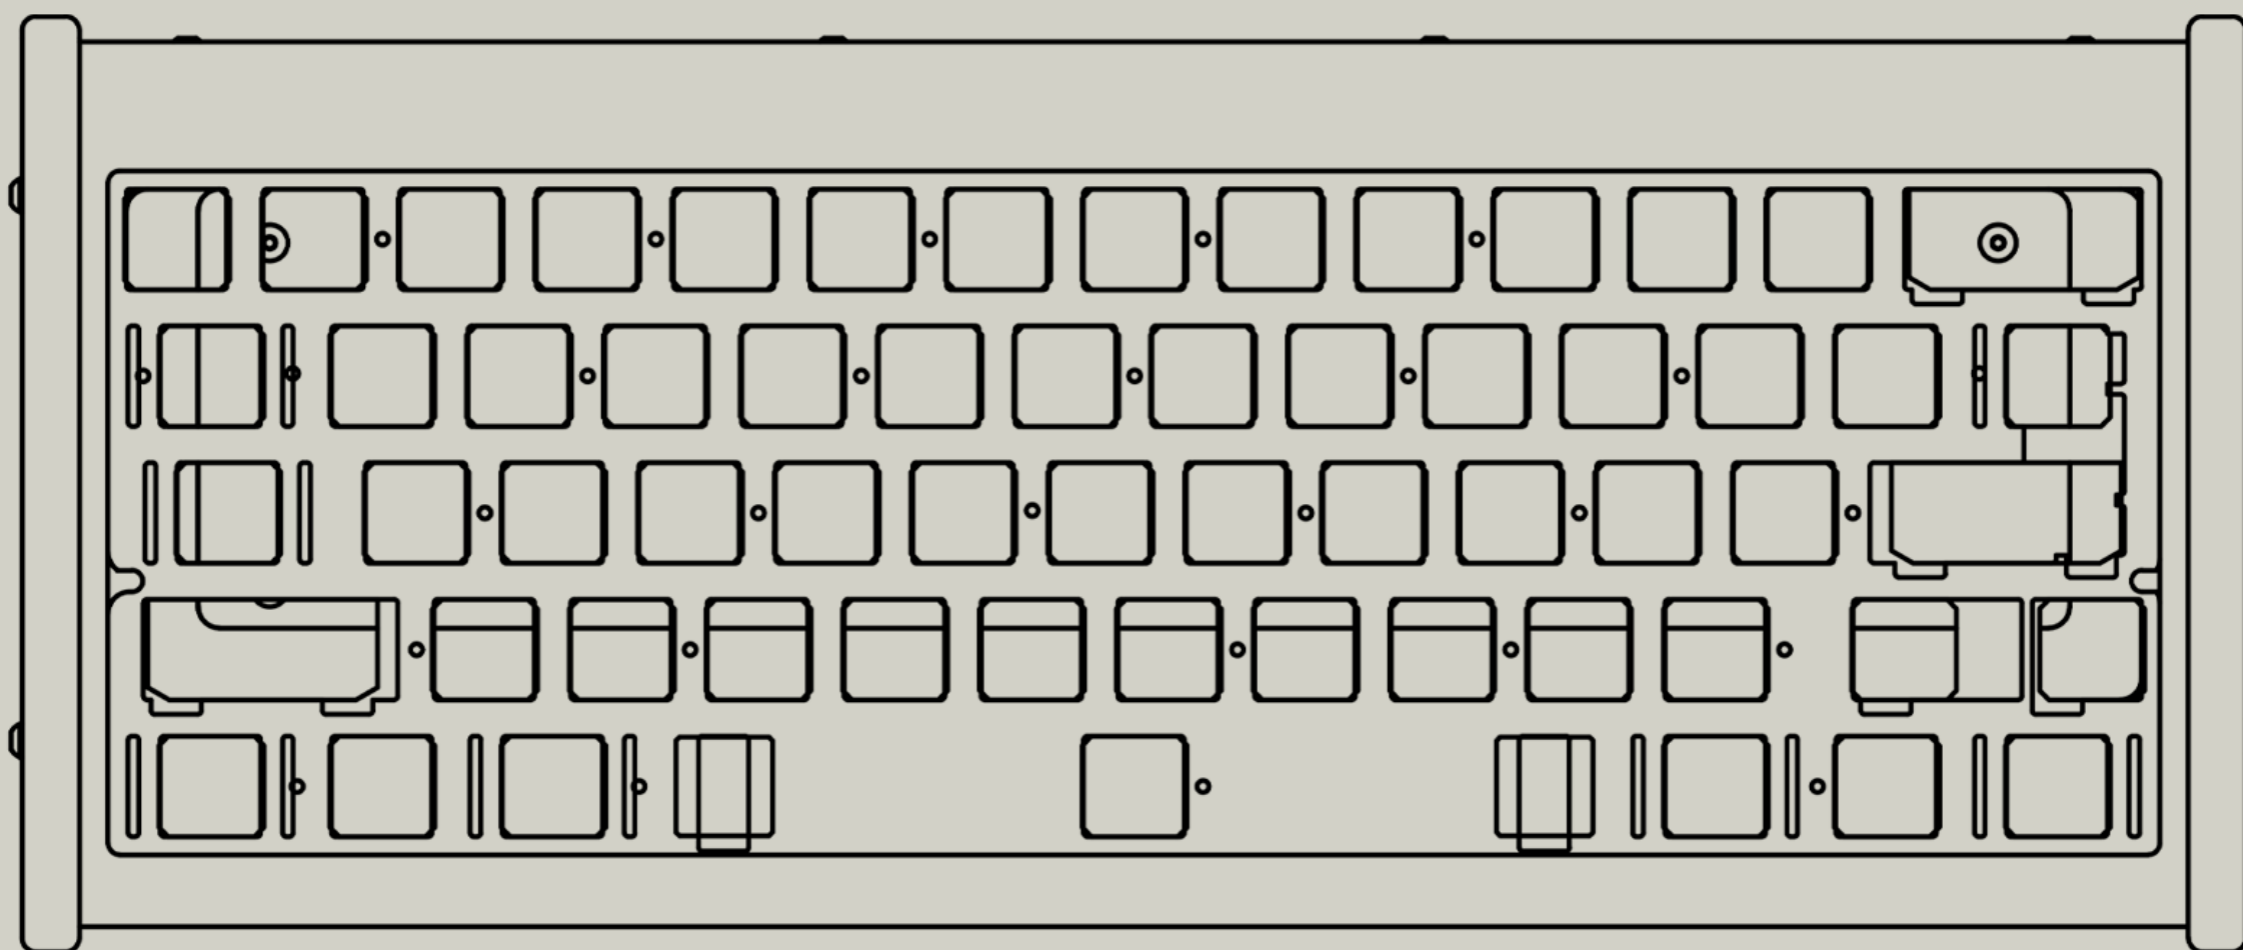

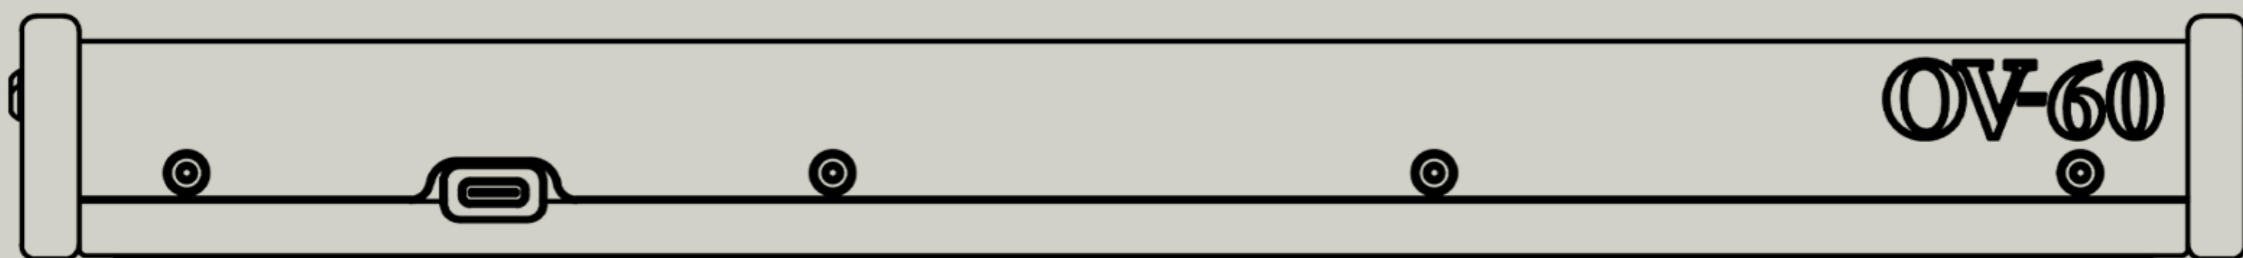

Featuring the iconic engraving in the back,  
external screws that defy our meta of "screwless designs",  
and two large wooden accents,  
the Overture attempts to stand out in the 60% space.
