PROFILE

I am currently a full time theatre design student at UAL in Wimbledon, looking for a part time job in a creative environment. Arts and Crafts has always been a centre point of my life, whether it was attending craft workshops with my mum as a child or juggling the months latest hyperfixation hobby, and I would love for my occupation to reflect this. I am very hardworking, driven, punctual, welcoming and accomodating, especially with customers who (of course) are at the center of it all! I hope to be a great fit for your team 😊
