A **soft, tactile, and playful** system that softens the harsh boundary between office scenarios, infusing a touch of sophisticated playfulness into flexible office.

Woven Wall

Weaving Scenarios

Woven collection curates office scenarios with a wall system and modular product that integrates organically with it. This collection breaks down the rigid boundaries of traditional office environments, fostering a casual and collaborative atmosphere.

Benching

Woven collection's wall system enhances office benching scenarios by providing flexible space division, integrated storage, and acoustic dampening. It turns conventional walls into havens that promotes organization and collaboration through built-in shelves and pinboards, while its tactility invites interaction and infuses personality to the workspace. components like the utility cart also functions as a wireless charging unit, providing a sense of companionship in the flexible office space.

Informal Meeting

Woven collection enhances informal meeting/lounging scenarios by creating defined yet flexible zones that encourage relaxed interactions and spontaneous discussions. The soft walls provide some privacy without isolating individuals.

Bouncing ideas becomes effortless with integrated pinboards and shelves. Woven collection brings a touch of playfulness to the quick touch and go session in the office, which is rising in popularity with the hybrid work culture.
