

### Narrative Exercises #3

1.) Unwanted temporary architectures. creating an uneasy space.

2.) Building sites propping up, police building tents, surveillance tents on excavations, asbest removal,

laying pipes, cables, connecting

Hostile architecture, bags of sand to protect events.

Sand dunes or other material being blown in the wind.

2.5) what material is blowing possibility for even more trash, mountains.

↳ Excavations of sand ~~excav~~, think of tagesbau, braunkohl, further excavations, iron, black coals, building tents, to cover or to hide. Claiming control of Resources.

↳ A tension in the landscape propping up through hidden, small infractions.

### 3) Affiction:

Tents are being build now also closer to my street. Recently fragments of the searched for have come out. earth a commodity, who would have thought. thinking of the garden in my childhood. a wind moves more away from here.

It's all okay when I think of the huge ~~leats~~ structures popping up elsewhere. starting with the kiel warth expanding statues and monuments, NRW, Ruhrgebiet, a bigger impact on where the question, what's behind arises, stories about it however getting increasingly smaller.
