Work History

Sunday Afternoon
Graphic Design Intern

Nov 2023 – Mar 2024

- Worked within an interdisciplinary design team to develop flexible design systems for corporate brand identity projects
- Collaborated with Creative Directors to construct presentations for client meetings to pitch directions for new brand identities
- Crafted designs for brands and advertising campaigns across various mediums, including motion, web, print, and built environments
- Sketched graphic and typographic ideas daily to incorporate feedback and meet client expectations. Create systems of flexible design assets to ensure effective handoff with the client

School of Visual Arts
BFA Graphic Design Student

Aug 2022 – Present

- Engaged in coursework focused on branded design systems, exploring their application in digital, print, and built environments
- Learning to create design systems with kinetic type, motion graphics, and 3D as core brand elements.
- Studying typeface design, typesetting, and application of typography in both traditional and experimental design projects
- Developing expertise in digital product design, conducting user research, creating wireframes & prototypes for apps and websites

Peraton
Intelligence Analyst

Aug 2019 – Aug 2022

- Prepared talking points and briefed at exchanges with foreign governments to convey top-line priorities and foster partnerships
- Synthesized complex research findings into digestible intelligence products for foreign partners, domestic policy makers, and US government agencies
- Regularly prepared presentations and briefed fast-breaking operations to large groups and high-level government officials

SAIC
Intelligence Analyst

Aug 2018 – Aug 2019

- Conducted research to uncover threats to U.S. national security, and provide threat warning to applicable government agencies

U.S. Air Force
Intelligence Analyst & Technical Writer

Aug 2013 – Aug 2018

- Authored and edited intelligence reports which effectively communicated foreign activity of interest and resulted in dozens of instances of recognition by policy makers and intelligence partners
- Queried and analyzed information to develop tailored intelligence products specific to the information needs of decision makers within the U.S government
