BANANA GELATINE

ANIMAL - BASED

#00130

amsterdamuas.com

RENEWABLE - WASTE - REUSABLE

INGREDIENTS:

- 6 g Glycerine
- 60 ml Water
- 6 g Gelatine
- Half banana peel

THIS IS A VARIATION ON:

Bioplastic Cook Book

for Fabtextiles by Margaret Dunne

Changes: made with banana peel waste

MAKING PROCEDURE:

- Add gelatine, water, and glycerine into a pot.
- Cook over medium heat and stir until the gelatine is dissolved and the solution starts to thicken
- Use a blender to make small pieces of banana peel and mix it with the other materials.
- Put the mix on a non stick surface
- After 24 hours, remove it from the surface and let it hang dry
