

MERVIN WONG

Mervin Wong is a performer. Raised in chambers of string, it took a moment for him to recognize the Viola as his truest limb. The tectonic shift to this deeper, enduring register has shaped his foray into electronic music-making. Mournful but reft of grief. Mervin Wong's long-form sensibilities rouse our waterflesh.

Years of forging his intention allow his process to be bright with speed. In service of resonance, every grain is burnished to the bone. A canoe made of ice. His sounds return to matter. Where footsteps span lightyears. Waves seethe and where the cosmos can glide through an albatross.

Mervin Wong is a performer, violist, composer, and electronic producer. He is an artist that is deeply dedicated to the shared experience of sound. Mervin Wong is the co-runner of Endless Return, an ambitious and acclaimed South-east Asian project series and label that is committed to cultivating a strong, innovative, and regionally-specific community.
