

QUESTION 1 / 9

You're invited to join Lumi marine scientists on a journey to the depths of the ocean to discover a new deep-sea creature!

Awesome! I'll get a big team together to join the adventure. Strength in numbers, right?

Cool! I'll prep quietly, maybe bring a trusted buddy or two. Less chatter, more underwater wonder!

NEXT

QUESTION 2 / 9

Before we dive in we need to prepare. As you gear up for the exploration, what's your plan?

I know exactly what I'm looking for. I have a detailed plan and I'll stick to it!

I'm open to the mystery! I have a feeling I'll know what I'm looking for once I find it.

QUESTION 4 / 9

As we try to classify a mysterious species, what sparks your curiosity more?

Collecting and analysing data, studying the species' behaviour and characteristics.

Exploring the species' role in the ecosystem, and the larger connection and meaning to the ocean.

QUESTION 7 / 9

A lot of sea creatures have transparent features, perfect for hiding from predators. How see-through do you hope your underwater discovery will be?

Let's stay on course and keep heading to the location where we know there are creatures waiting.

The cave is calling to me! Let's take a detour. Who knows what wonders we might find inside?

QUESTION 8 / 9

As we navigate through the deep sea, our radar detects a secret cave. What is your game plan?

Let's stay on course and keep heading to the location where we know there are creatures waiting.

The cave is calling to me! Let's take a detour. Who knows what wonders we might find inside?

QUESTION 9 / 9

Creatures down here come in all shapes and sizes—from microbes invisible to the naked eye to squids as big as a car! How big of a discovery are you hoping to stumble upon today?

Let's stay on course and keep heading to the location where we know there are creatures waiting.

The cave is calling to me! Let's take a detour. Who knows what wonders we might find inside?

QUESTION 6 / 9

Creatures in the darkest parts of the deep sea have adapted to the lack of light by learning to make their own. Some rock glow in the dark patterns while others have special light organs, like a built in torch! Which would you choose?

Glowing patterns for sure.

Can I have both?

Lamp organ, please!

I can't decide, surprise me!
