

botanica blends

// our bespoke smoke //

botanica blends are made with a cost-effective extraction method that isolates the highest concentration of THC by removing other essential cannabinoids. This ensures that customers get only what they want: a clean, potent high.

who it's for:

people who want high potency and clean, consistent flavor.

ingredients:

cannabis oil, botanical terpenes; never synthetic

product highlights

TRUtaste™:

our postless technology means your oil is untouched by metals, cotton, or glue.

powerful effects:

highest concentration of THC and botanical terpenes for powerful & potent effects.

100% tested & clean:

lab tested for purity & safety

high potency:

90-96% D9 THC with naturally-occurring terpenes

our bespoke smoke

botanica blends are turn's unique flavor and feel profiles made with real botanical ingredients. Our team creates unique taste experiences that go beyond flavor, helping shape how you feel — whether it's UP, DOWN, or somewhere in between. It's about real taste, real ingredients, and a real experience.
