October 26th 2024

Dear Brian,

As already mentioned in our previous conversations, our Alliance is committed to advancing scientific research, foster discovery and innovation, promoting clean energy solutions, caring for environment and nature, while driving economic development, cultural and artistic initiatives, enhancing health and quality of life by all means.

This approach aligns with our goal to implement the UN Sustainable Development Goals on the global scale. In accordance with these objectives, we are currently developing an international music & arts events starting on 12th.12. 2026. As part of this initiative we are excited to support your "The Last Ice Project" and express our commitment as following:

- At the launch of our project (envisioned for April/May 2026) all participating artists will receive financial support in accordance to their conceptual involvement.
- Your project has been assesd and reached the highest (global significance) level. As such you can receive the maximum support of 200.000,00 Euro
- You will be able to use those funds based on your official project budget. Our accounting (Deloitte) requires only your expenditure accountability report.
- At the date of our lauch we will acknowledge some of choosen artistic projects by maching whatever funds they were able to raise by that date 1 to 1. The Last Ice is one of those who shall receive this support (independently from the first 200K).
- Please note that it is not possible to receive any funds before the event launch.

If you have further questions please don't hesitate to contact us.

Our congratulation once again, we are looking forward to collaborate with you.

Best regards,
