WINDOW DISPLAY BOXES interior measurements (as seen from the outside)	Width	Height	Depth
Display box 1	374.8cm	291.8m	59.5cm
Display box 2	373.5cm	291.8m	59.1cm

Light & Electricity

Display 1 has an electricity socket. Both displays have built-in lightspots in the ceiling with Philips Hue spots (can be adjusted into any color preferable).

Windows are insulated

Please note

the exhibition space has

- Two display boxes, accessible from inside the project space.
- However, the windows are divided in four separate windows (as visible in [image 1])

The walls, floors and ceilings can be painted in any preferred color
